SECOND FLOOR PLAN

An attention-grabbing exterior and a versatile inside layout highlight this two-story country home. The kitchen, with an island counter and a serving bar, fits well with the sunny breakfast bay and the hearth-warmed family room. The master suite, embracing the entire left wing, contains a well-lit sitting area and a lavish bath with twin vanities, a shower with a seat, and a huge tub. Upstairs, two bedrooms share a bath and an overlook into the family room. Access to the attic can be made from this floor, and additional space is available for expansion.
